

Address of JSHR President

Friday, June 24th, 2022 13:10~13:40

Room 1 (2F kouyou)

Chair: Hiroto Miwa
(Emeritus professor, Hyogo Medical University / Kawanishi City Medical Center)

Strategies for the Diagnosis and treatment of Gastric Cancer after *H. pylori* eradication.

Kazunari Murakami

(Department of Gastroenterology, Faculty of Medicine, Oita University)

Special Lecture 1

Friday, June 24th, 2022 14:20~14:50

Room 1 (2F kouyou)

Chair: Hiroyuki Okada
(Department of Gastroenterology, Japanese Red Cross Himeji Hospital)

Pathogenic metabolites in *Helicobacter pylori* that exacerbate gastritis

Sho Yamasaki

(Research Institute for Microbial Diseases (RIMD) /

Immunology Frontier Research Center (IFReC), Osaka University)

Special Lecture 2

Saturday, June 25th, 2022 10:40~11:10

Room 1 (2F kouyou)

Chair: Takashi Kawai
(Tokyo Medical University)

**Gastric cancer prevention by *H. pylori* eradication therapy:
Current status and remaining issues.**

Kentaro Sugano

(Honorary Professor, Jichi Medical University)

Overseas Special Lecture 1

Friday, June 24th, 2022 13:50~14:20

Room 1 (2F kouyou)

Chair: Naomi Uemura
(National Center for Global health and Medicine, Kohnodai hospital)

***Helicobacter pylori* infection, eradication, GERD and the microbiome**

Nimish Vakil
(University of Wisconsin School of Medicine and Public Health, Madison, WI, USA)

Overseas Special Lecture 2

Saturday, June 25th, 2022 11:20~11:50

Room 1 (2F kouyou)

Chair: Mototsugu Kato
(Hokkaido Cancer Society)

Revolution in the diagnosis and treatment of *Helicobacter pylori* infections in western countries: West meets East.

David Y. Graham
(Baylor College of Medicine, Houston, TX, USA.)

Best Presentation Award

Friday, June 24th, 2022 16:00~16:30

Room 1 (2F kouyou)

Chair: Jiro Watari
(Kinentou Hospital)

Antisecretory agents drive human gut microbiome variation

Naoyoshi Nagata
(Department of Gastroenterological Endoscopy, Tokyo Medical University)

Academic Award (Clinical Research)

Friday, June 24th, 2022 16:30~17:00

Room 1 (2F kouyou)

Chair: Makoto Sasaki
(Department of Gastroenterology, Aichi Medical University School of Medicine)

Toward the society with complete *Helicobacter* eradication

Yoshihiro Hirata
(Division of advanced genome medicine, The Institute of Medical Science, The University of Tokyo)

JSHR Educational Lecture (Qualification Renewal)

Saturday, June 25th, 2022 16:00~17:00

Room 1 (2F kouyou)

Chair: Akiko Shiotani
(Kawasaki Medical School Internal Medicine)

Lecture 1

Basics for safe and effective *H. pylori* eradication therapy

Takahisa Furuta

(Center for Clinical Research Hamamatsu University School of Medicine)

Lecture 2

Eradication of *Helicobacter pylori* and gastric cancer risk: Up to date

Motowo Mizuno

(Kurashiki Central Hospital, Department of Gastroenterology and Hepatology)

JSHR Educational Lecture (New Qualification)

Sunday, June 26th, 2022 10:00~11:00

Streaming Distribution

Chair: Hidekazu Suzuki
(Division of Gastroenterology and Hepatology, Department of Internal Medicine, Tokai University School of Medicine)

(Basic Research)

Basic research of *Helicobacter pylori*

Kinnosuke Yahiro

(Department of Microbiology and Infection Control Sciences, Division of Biological Sciences, Kyoto Pharmaceutical University)

(Clinical Research)

**Diagnosis and treatment of *H. pylori* infection
-Based on guideline of *H. pylori* infection-**

Seiji Futagami

(Division of Gastroenterology, Nippon Medical School)

Qualification exam

Sunday, June 26th, 2022 11:30~12:00

Streaming Distribution

Eradication Registry Briefing Session/Ethics Lecture

Friday, June 24th, 2022 17:10~17:40

Room 1 (2F kouyou)

Chair: Shogo Kikuchi
(Department of Public Health, Aichi Medical University School of Medicine)

Morning Seminar 1

Friday, June 24th, 2022 8:00~8:50

Room 1 (2F kouyou)

Chair: Hidekazu Suzuki
(Division of Gastroenterology and Hepatology, Department of Internal Medicine, Tokai University School of Medicine)

Sponsored by: AI Medical Service Inc.

The Global Challenge of Endoscopic AI Originated in Japan

Tomohiro Tada

(AI Medical Service Inc. / Tada Tomohiro the Institute of Gastroenterology & Proctology)

Morning Seminar 2

Saturday, June 25th, 2022 8:00~8:50

Room 1 (2F kouyou)

Chair: Shotaro Nakamura
(International University of Health and Welfare, School of Medicine /
Center for Gastroenterology, Takagi Hospital)

Sponsored by: Otsuka Pharmaceutical Co., Ltd.

Economic Impact of *Helicobacter pylori* Eradication Strategy

Akiko Kowada

(Health Sciences University of Hokkaido)

Light and shadow of acid secretion inhibitors

Chika Kusano

(Department of Gastroenterology, Kitasato University School of Medicine)

Luncheon Seminar 1

Friday, June 24th, 2022 12:10~13:00

Room 1 (2F kouyou)

Chair: Yasuhiro Fujiwara
(Osaka Metropolitan University Graduate School of Medicine)

Sponsored by: Otsuka Pharmaceutical Co., Ltd./ Takeda Pharmaceutical Co., Ltd.

Optimizing Management of GERD ~Based on the Clinical Practice Guidelines for GERD 2021~

Kunio Kasugai
(Aichi Medical University)

Luncheon Seminar 2

Friday, June 24th, 2022 12:10~13:00

Room 2 (1F naruo)

Chair: Kentaro Sugano
(Jichi Medical University)

Sponsored by: Miyarisan Pharmaceutical Co., Ltd.

Helicobacter pylori infection and intestinal microbiota

Shigeru Kamiya
(Professor Emeritus, Kyorin University)

Luncheon Seminar 3

Friday, June 24th, 2022 12:10~13:00

Room 3 (2F atago)

Chair: Kazuhiko Inoue
(Junpukai Health Maintenance Center)

Sponsored by: Eiken Chemical Co., Ltd.

Usefulness of new test kits in non-invasive diagnosis for *H. pylori* infection.

Tadashi Shimoyama
(Aomori General Health Examination Center)

Luncheon Seminar 4

Saturday, June 25th, 2022 12:00~12:50

Room 1 (2F kouyou)

Chair: Kazunari Murakami

(Department of Gastroenterology, Oita University Faculty of Medicine)

Sponsored by: Biofermin Pharmaceutical Co., Ltd / Taisho Pharmaceutical Co., Ltd.

Drugs-induced small intestinal injury and gut microbiome

Toshio Watanabe

(Department of Premier Preventive Medicine, Osaka Metropolitan University Graduate School of Medicine)

Luncheon Seminar 5

Saturday, June 25th, 2022 12:00~12:50

Room 2 (1F naruo)

Chair: Hiroto Miwa

(Hyogo Medical University)

Sponsored by: AstraZeneca K.K.

Long term PPI therapy effects on *H. pylori* and the gut microbiome

Nimish Vakil

(University of Wisconsin School of Medicine and Public Health, Madison, WI, USA)

Luncheon Seminar 6

Saturday, June 25th, 2022 12:00~12:50

Room 3 (2F atago)

Chair: Nobuo Aoyama

(Aoyama Clinic : GI Endoscopy & IBD Center)

Sponsored by: Fujifilm Irvine Scientific

***H. pylori* genome structure and antibody reaction**

Kenji Yokota

(Graduate School of Health Science, Okayama University)

Reconsidering the effective use of serum *H. pylori* antibodies in Japan

Kazuhiko Inoue

(Junpukai Health Maintenance Center)

Afternoon Seminar 1

Friday, June 24th, 2022 15:05~15:55

Room 1 (2F kouyou)

Chair: Yoshihiro Fukuda
(Dainikyoritsu Hospital)

Sponsored by: Denka Co., Ltd.

Serum antibody test for screening of *Helicobacter pylori* infection diagnosis and Gastric cancer

Masanori Ito

(Department of General Internal Medicine, Hiroshima University Hospital)

Afternoon Seminar 2

Friday, June 24th, 2022 15:05~15:55

Room 2 (1F naruo)

Chair: Tadashi Shimoyama
(Aomori General Health Examination Center)

Sponsored by: Mizuho Medy Co., Ltd.

Usefulness of novel rapid clarithromycin-resistant *H. pylori* diagnosis for eradication therapy.

Mototsugu Kato

(Hokkaido Cancer Society Sapporo Cancer Screening Center)

Afternoon Seminar 3

Saturday, June 25th, 2022 14:35~15:25

Room 1 (2F kouyou)

Chair: Ken Haruma
(Department of General Internal Medicine 2, Kawasaki Medical School General Medical Center / Junpukai Health Maintenance Center)

Sponsored by: Fujifilm Medical Co., Ltd.

Current status and future of endoscopy diagnosis by nasal endoscopy

Takashi Kawai

(Department of Gastroenterological Endoscopy, Tokyo Medical University)

Afternoon Seminar 4

Saturday, June 25th, 2022 14:35~15:25

Room 2 (1F naruo)

Chair: Seiji Futagami
(Division of Gastroenterology, Nippon Medical School)

Sponsored by: Zeria Pharmaceutical Co., Ltd.

Is it enough to suppress acid secretion?

A “systematic” treatment strategy for “complex” upper abdominal symptoms

Toshihisa Takeuchi

(Osaka Medical and Pharmaceutical University Hospital Endoscopy Center)

Symposium 1

Friday, June 24th, 2022 9:00~10:30

Room 1 (2F kouyou)

Current trends and issues for differential diagnosis of *H. pylori* infectious status

Chair: Masanori Ito
(Department of General Internal Medicine, Hiroshima University Hospital)

Akiko Shiotani
(Kawasaki Medical School)

Special Remarks: Nobuo Aoyama
(Aoyama Medical Clinic)

Commentator: Kengo Tokunaga
(Department of General Medicine, Kyorin University School of Medicine)

S1-1 Status of *H. pylori* infection by interview

Masahiko Ohtaka
(Yamanashi Koseiren Health Care Center Internal medicine)

S1-2 Discordant cases of *H. pylori* antibody EIA and LA methods in our hospital

Kumiko Ueda
(Department of Gastroenterology, Juntendo University School of Medicine)

S1-3 Comparison of LETIA and ELISA methods for measurement of serum *Helicobacter pylori* antibody levels

Masami Tanaka
(Department of Gastroenterology, Toranomon Hospital)

S1-4 Difference of seropositivity among 4 kits after *H. pylori* eradication: A 6-year follow-up.

Kohei Yasuda
(Department of Gastroenterology and Hematology, Hirosaki University Graduate School of Medicine)

S1-5 Diagnosis of *H. pylori* infectious status using the hybrid ABC and its practical use

Masayuki Inui
(Inui clinic of internal medicine)

- S1-6 Challenging diagnosis of concurrent *H. pylori* infection with autoimmune gastritis**
Tohru Kotera
(Department of Medical Examination, Uji-Tokushukai Medical Center)
- S1-7 Association between autoimmune gastritis and *H. pylori* infection**
Naoki Sumi
(Department of health care medicine, Kawasaki Medical School)
- S1-8 SNP analysis in PSCA related with gastric mucosal atrophy**
Takuki Sakaguchi
(Department of Gastroenterology and Nephrology, Faculty of Medicine, Tottori University)

Symposium 2

Friday, June 24th, 2022 10:30~12:00

Room 1 (2F kouyou)

Progress in endoscopic diagnosis of gastritis and gastric cancer according to the background mucosa

- Chair: Mitsuru Kaise
(Department of Gastroenterology, Nippon Medical School)
Mitsuhiro Fujishiro
(Department of Gastroenterology, Graduate School of Medicine, The University of Tokyo)
- Special Remarks: Kazuhide Higuchi
(2nd Department of Internal Medicine, Osaka Medical and Pharmaceutical University)
- Commentator: Mitsushige Sugimoto
(Department of Gastroenterological Endoscopy, Tokyo Medical University)

- S2-1 The features of autoimmune gastritis with *H. pylori* infection**
Mototsugu Kato
(National Hospital Organization Hakodate National Hospital)
- S2-2 Clinicopathological study of gastric cancer cases with autoimmune gastritis (AIG)**
Yuichi Hara
(Division of Gastroenterology, Matsuyama Red-cross Hospital)
- S2-3 LCI and Histological Findings for Mucosal Redness after *H. pylori* Eradication Therapy**
Hiraku Misawa
(Kawasaki Medical School)
- S2-4 Endoscopic diagnosis of *H. pylori* infectious status using the endoscopic ABC classification**
Masayuki Inui
(Inui clinic of internal medicine)
- S2-5 Third-generation ultrathin endoscopy using IEE to evaluate gastritis: a randomized controlled trial**
Mitsushige Sugimoto
(Department of Gastroenterological Endoscopy, Tokyo Medical University Hospital)

- S2-6 Analysis for high-risk group of gastric cancer according to Kyoto classification; multicenter study**
Masashi Kawamura
(Department of Gastroenterology, Sendai City Hospital)
- S2-7 Qualitative diagnosis of gastric cancer based on endoscopy-based Kyoto classification of gastritis**
Osamu Toyoshima
(Toyoshima Endoscopy Clinic)
- S2-8 Comparison of endocytoscopic diagnosis between *H. pylori* infected and eradicated gastric cancer**
Hiroto Noda
(Department of Gastroenterology, Nippon Medical School Hospital)
- S2-9 Endoscopic and clinicopathological features of early gastric cancer in *H. pylori* uninfected patient**
Nobuyuki Suzuki
(Department of Gastroenterology, Juntendo University School of Medicine)

Symposium 3

Saturday, June 25th, 2022 9:00~10:30

Room 1 (2F kyouyuu)

Gastric cancer prevention strategies, perspective and problems

- Chair: Shogo Kikuchi
(Department of Public Health, Aichi Medical University School of Medicine)
- Katsuhiko Mabe
(Junpukai Health Maintenance Center, Kurashiki)
- Special Remarks: Masahiro Asaka
(Health Sciences University of Hokkaido)

- S3-1 (Keynote Lecture)**
The issues and strategy in post-*Hp* eradication era for gastric cancer prevention
Toshiro Sugiyama
(Health Sciences University of Hokkaido, Advanced Research Center)
- S3-2 Long-term prediction of gastric cancer incidence considering *H. pylori* prevalence**
Sayo Kawai
(Department of Public Health, Aichi Medical University School of Medicine)
- S3-3 The results of *H. pylori* screening which is trying as prevention of gastric cancer in our hospital**
Momoko Tsuda
(Department of Gastroenterology, National Hospital Organization Hakodate National Hospital)
- S3-4 Current status and future direction of gastric cancer screening in Yamagata Prefecture**
Ko Nagino
(Department of Gastrointestinal, Yamagata Prefectural Central Hospital /
Central Committee for Gastrointestinal Screening, Yamagata Medical Association)

- S3-5 Countermeasures for gastric cancer prevention through population-based X-ray screening program.**
Takashi Chiba
(Miyagi Cancer Society)
- S3-6 Strategies for eliminating death from gastric cancer in Hokkaido**
Katsuhiko Mabe
(Junpukai Health Maintenance Center Kurashiki /
National Hospital Organization Hakodate National Hospital)
- S3-7 Examination of status after 5 years for each group diagnosed by ABC classification**
Daisuke Chinda
(Division of Endoscopy, Hirosaki University Hospital)
- S3-8 Problems of *H. pylori* screening in gastric cancer prevention**
Kazuhiko Inoue
(Junpukai Health Maintenance Center)
- S3-9 Unavoidable decisions and demanded evidences for gastric cancer prevention in future**
Shogo Kikuchi
(Department of Public Health, Aichi Medical University School of Medicine)

Panel Discussion 1

Friday, June 24th, 2022 9:00~10:30

Room 2 (1F naruo)

Dyspepsia and gut microbiota

- Chair: Tomoari Kamada
(Department of health Care Medicine, Kawasaki Medical School)
- Hidekazu Suzuki
(Division of Gastroenterology and Hepatology, Department of Internal Medicine, Tokai University School of Medicine)
- Special Remarks: Seiji Futagami
(Division of Gastroenterology, Nippon Medical School)

PD1-1 (Keynote Lecture)

Functional dyspepsia - pathogenesis and involvement of Dysbiosis

Ken Haruma
(General Internal Medicine 2, Kawasaki Medical School General Medical Center)

PD1-2 Effects of Proton Pump Inhibitors on the Intestinal Barrier in Mice Under Stressed Conditions

Shingo Takashima
(Osaka Metropolitan University Hospital Premier Preventive Medicine)

PD1-3 Chronic epigastric pain and gastric microbiota

Takashi Ueda
(Division of Gastroenterology and Hepatology, Department of Internal Medicine, Tokai University School of Medicine)

PD1-4 Gastric environment and symptom generation: prospects from *Hp*-associated dyspepsia research

Juntaro Matsuzaki

(Division of Pharmacotherapeutics, Keio University Faculty of Pharmacy)

Panel Discussion 2

Saturday, June 25th, 2022 9:00~10:30

Room 2 (1F naruo)

Current status and response to *H. pylori* infection in children and adolescents

Chair: Masumi Okuda

(Department of Pediatrics, Hyogo Medical University)

Toshiaki Shimizu

(Department of Pediatrics, Juntendo University Faculty of Medicine)

Special Remarks: Yoshihiro Fukuda

(Dainikyoritsu Hospital)

PD2-1 Study of *H. pylori* infection rate in 3-year-old children

Tadashi Matsubayashi

(Department of Pediatrics, Seirei Hamamatsu Hospital)

PD2-2 Clinical evaluation of a novel *H. pylori* stool antigen test using bioluminescent enzyme immunoassay

Toshihiko Kakiuchi

(Saga University Hospital)

PD2-3 Does *H. pylori*-associated dyspepsia exist in childhood?

Tamaki Ikuse

(Department of Pediatrics, Juntendo University Faculty of Medicine)

PD2-4 Antibiotic resistance of *Helicobacter pylori* and key factors inducing the resistance in pediatric patients

Tamaki Ikuse

(Department of Pediatrics, Juntendo University Faculty of Medicine)

PD2-5 The results of secondary eradication of *H. pylori* in first-year high school students in Yokosuka

Yasuhiro Mizuno

(Ma-ru Clinic Yokosuka)

PD2-6 A Study of dual therapy with vonoprazan for *H. pylori* Positive adolescent

Chika Kusano

(Division of Gastroenterology and Hepatology, Department of Medicine, Kitasato University School of Medicine)

Workshop 1

Friday, June 24th, 2022 10:30~12:00

Room 2 (1F naruo)

Current progress on basic aspects of *Helicobacter* research

Chair: Takako Osaki
(Department of Infections Diseases, Kyorin University School of Medicine)
Shin Maeda
(Department of Gastroenterology, Yokohama City University)
Special Remarks: Shigeru Kamiya
(Kyorin University)

WS1-1 (Keynote Lecture)

Current Status of Basic Researches for *Helicobacter* Infection

Yoshio Yamaoka
(Department of Environmental and Preventive Medicine, Oita University Faculty of Medicine)

WS1-2 Changes in gastric microflora in the *Helicobacter pylori* infection model using MPS mice

Fuhito Hojo
(Institute of Laboratory Animals, Graduate School of Medicine, Kyorin University)

WS1-3 Cellular effect by *Helicobacter pylori* and co-cultured nitrate-reduction bacteria

Hinako Ojima
(Graduate school of health sciences Okayama university)

WS1-4 A novel identified non-*Helicobacter* bacteria associated with the development of gastric cancer

Hitoshi Tsugawa
(Transkingdom Signaling Research Unit, Division of Host Defense Mechanism, Tokai University School of Medicine)

WS1-5 Epithelial damage and activation by Non-*Helicobacter* gastric microbiome

Yoku Hayakawa
(Department of Gastroenterology, The University of Tokyo)

WS1-6 Analysis of platelet activation induced by *H. pylori* membrane protein, Lpp-20.

Asako Kimura
(International University of Health and Welfare, Department of Medical Technology and Sciences)

WS1-7 Epigenome microevolution associated with DNA methyltransferase specificity changes in *H. pylori*.

Masaki Fukuyo
(Department of Molecular Oncology School of Medicine, Chiba University / Department of Applied Genomics, Kazusa DNA Research Institute)

WS1-8 *H. pylori* induces viral receptor expression via a type IV secretion and promotes EBV infection

Hisashi Iizasa
(Department of Microbiology, Faculty of Medicine, Shimane University)

WS1-9 Comparable genetic alterations between gastric cancers with current and past *H. pylori* infection

Sho Tsuyuki

(Division of Epigenomics, National Cancer Center Research Institute / Department of Gastroenterology, Yokohama City University Graduate School of Medicine)

Workshop 2

Friday, June 24th, 2022 13:30~15:00

Room 2 (1F naruo)

Improvements and problems of *H. pylori* eradication therapy - from initial therapy to rescue therapy -

Chair: Takahisa Furuta

(Center for Clinical Research Hamamatsu University School of Medicine)

Tadashi Shimoyama

(Aomori general Health Examination Center)

Special Remarks: Kiichi Satoh

(Department of Gastroenterology, International University of Health and Welfare Hospital)

WS2-1 Development of a scoring system for predicting clarithromycin-resistant *H. pylori*

Sho Suzuki

(International University of Health and Welfare Ichikawa Hospital)

WS2-2 The efficacy of vonoprazan based tailored first-line eradication therapy on drug susceptibility test

Masaki Murata

(Department of Gastroenterology, National Hospital Organization Kyoto Medical Center)

WS2-3 Multicenter intervention trial of vonoprazan and high dose amoxicillin dual therapy for *H. pylori*

Soichiro Sue

(Yokohama City University Hospital)

WS2-4 Evaluation of low-dose rifabutin based regimen as a third- or later-line *H. pylori* eradication

Kazumi Inokuchi

(Division of Gastroenterology and Hepatology, Department of Internal Medicine, Keio University School of Medicine)

WS2-5 A risk factor for drug eruption in *H. pylori* eradication therapy

Tomohiro Higuchi

(First Department of Medicine, Hamamatsu University School of Medicine)

WS2-6 Study of symptoms around *H. pylori* eradication the view of the level gastric mucosal atrophy

Kazutake Oguma

(Department of Internal Medicine, Asoka Hospital)

Workshop 3

Saturday, June 25th, 2022 13:00~14:30

Room 1 (2F kyouyuu)

Advantages and disadvantages of declining *H. pylori* infection

- Chair: Katsunori Iijima
(Department of Gastroenterology, Akita University Graduate School of Medicine)
Akihito Nagahara
(Department of Gastroenterology, Juntendo University School of Medicine)
- Special Remarks: Shin'ichi Takahashi
(Department of Internal Medicine, Kosei hospital)
- Commentator: Toshio Watanabe
(Department of Premier Preventive medicine, Osaka Metropolitan University)

WS3-1 (Invited Lecture)

H. pylori and gastric cancer

Yoshihiro Hirata
(Division of advanced genome medicine, The Institute of Medical Science, The University of Tokyo)

WS3-2 Predicted gastric cancer incidence, mortality, effects of *Hp* eradication through 2050

Ryota Niikura
(Gastroenterological Endoscopy, Tokyo Medical University)

WS3-3 (Invited Lecture)

Relationship between *Helicobacter pylori* and gastroesophageal reflux disease

Tomoyuki Koike
(Division of Gastroenterology, Tohoku University Graduate School of Medicine)

WS3-4 (Invited Lecture)

H. pylori and peptic ulcer disease

Kiichi Satoh
(Department of Gastroenterology, International University of Health and Welfare Hospital)

WS3-5 Relationship between *H. pylori* infection and gastric mucosal injuries in patients taking aspirin

Yuji Shimada
(Juntendo University Shizuoka Hospital)

WS3-6 Association of *H. pylori* with Inflammatory Bowel Disease

Satoru Takahashi
(Hamamatsu University Hospital)

WS3-7 (Invited Lecture)

Effect of decrease of *H. pylori* prevalence on mortality

Shogo Kikuchi
(Department of Public Health, Aichi Medical University School of Medicine)

Oral Session 1

Friday, June 24th, 2022 9:00~9:30

Room 3 (2F atago)

Gastric Cancer 1

Chair: Eiji Umegaki
(Division of Gastroenterology & Hepatology, Kawasaki Medical School)

- O1-1 Characteristics of SM invasive gastric cancer detected after eradication therapy in our hospital**
Kazuo Yashima
(Division of Gastroenterology and Nephrology, Faculty of Medicine, Tottori University)
- O1-2 Significance of *H. pylori* infection in patients with familial adenomatous polyposis**
Keisuke Nakai
(Division of Gastroenterology and Hepatology, Department of Internal Medicine, Hyogo Medical University)
- O1-3 Analysis of patient characteristics in patients undergoing gastric ESD after *H. pylori* eradication**
Hideharu Ogiyama
(Itami City Hospital)

Oral Session 2

Friday, June 24th, 2022 9:40~10:10

Room 3 (2F atago)

Gastric Cancer 2

Chair: Daisuke Asaoka
(Juntendo Tokyo Koto Geriatric Medical Center)

- O2-1 Assessment of factors related to gastric cancer prevention using medical examination data**
Kyoko Ito
(Centre for Preventive Medicine, The Jikei University School of Medicine)
- O2-2 Promotion of *H. pylori* eradication for 20 years decrease advanced gastric cancer**
Yoshihiro Ohno
(Department of diagnostic pathology, Tone chuou hospital)
- O2-3 Gastric xanthelasma and molecular alterations as a predictive marker for synchronous/metachronous gastric cancer**
Hirotosugu Eda
(Division of Gastroenterology and Hepatology, Department of Internal Medicine, Hyogo Medical University)

Oral Session 3

Friday, June 24th, 2022 10:30~11:00

Room 3 (2F atago)

Diagnostic

Chair: Masahiko Ohtaka
(Yamanashi Koseiren Health Care Center)

- O3-1** **Diagnosis of *H. pylori*-infected gastritis with Dedicated Vehicle for Transnasal Endoscopy**
Satoshi Ikeda
(Ikeda hospital Surgery·Gastroenterology)
- O3-2** **Evaluation of seropositivity of E-plate and LZ-II in patients with successful *H. pylori* eradication**
Yasumitsu Araki
(Mutsu General Hospital)
- O3-3** **Abstract Withdrawal**

Oral Session 4

Saturday, June 25th, 2022 10:40~11:20

Room 2 (1F naruo)

Eradication Therapy and Others

Chair: Noriyuki Horiki
(Mie University School of Medicine)

- O4-1** **Clinical study of *Helicobacter pylori* eradication therapy with sitafloxacin**
Tatsushi Omatsu
(Department of Gastroenterology and Hepatology, North Medical Center, Kyoto Prefectural University of Medicine / Department of Gastroenterology and Hepatology, Asahi University Hospital)
- O4-2** **Current problems in the eradication of *H. pylori* in Japan**
Soichiro Sue
(Yokohama City University Hospital)
- O4-3** **Examination of changes in the gut microbiome after *Helicobacter pylori* eradication in young adults.**
Shotaro Okanoue
(Department of Gastroenterology and Hepatology, Okayama University Graduate School of Medicine)
- O4-4** **Influence of the sanitary environment during childhood on *Helicobacter pylori* infection**
Takunori Ueno
(Division of Gastroenterology, Tsukuba Central Hospital)

Oral Session 5

Saturday, June 25th, 2022 13:00~13:30

Room 2 (1F naruo)

NHPH and Others

Chair: Tadayoshi Okimoto
(Department of Gastroenterology Faculty of Medicine, Oita University)

- O5-1 **Prevalence of non-*Helicobacter pylori Helicobacter* in Myanmar and Nepal in Comparison with Japan**
Masahiko Nakamura
(Ohmura Satoshi Memorial Institute, Kitasato University)
- O5-2 **A clinical study on eradication therapy for non-*Helicobacter pylori Helicobacter* (NHPH)**
Toshihisa Tsukadaira
(Department of Internal Medicine, Kenwakai Hospital)
- O5-3 **Upper gastrointestinal endoscopic findings in functional constipation and irritable bowel syndrome**
Koji Otani
(Department of Gastroenterology, Osaka Metropolitan University Graduate School of Medicine)

Oral Session 6

Saturday, June 25th, 2022 13:40~14:10

Room 2 (1F naruo)

Basic Research

Chair: Juntaro Matsuzaki
(Division of Pharmacotherapeutics, Keio University Faculty of Pharmacy)

- O6-1 ***Helicobacter pylori* proteins implicated in host interaction**
Ichizo Kobayashi
(Research Center for Micro-Nano Technology, HOSEI University)
- O6-2 **Nitrate-reducing bacteria in the gastric mucosa in *Helicobacter pylori* infected gastritis**
Sakiko Kuraoka
(Department of Gastroenterology and Hepatology, Okayama University Hospital)
- O6-3 **Nucleotide Polymorphism in Outer Membrane Protein and Flagella Associated with Biofilm Formation**
Kartika Afrida Fauzia
(Department of Environmental and Preventive Medicine, Faculty of Medicine, Oita University)
